Amazon Business (India) Commercial Returns Policy

Document ID: AMZ-IN-BUSINESS-RETURNS
Marketplace: Amazon.in (Business)
Scope: Commercial procurement, GST invoice credit notes, and bulk order return terms.

1. Commercial Purchase Return Terms

Orders placed through Amazon Business India accounts are governed by item-level return policies specified on the commercial product detail page. General consumer return policies apply with key commercial modifications:

- **GST Invoice Adjustments:** When a business return is accepted, Amazon issues a GST-compliant credit note adjusting the input tax credit (ITC) previously claimed on the original tax invoice.
- **Bulk Order Exceptions:** Orders exceeding standard commercial consumer quantities (e.g., more than 5 units of the same SKU) require seller pre-authorization before a return can be booked.
- **Defective Commercial Goods:** Industrial equipment and specialized office electronics require manufacturer service center inspection prior to return processing.
